

BABU BANARASI DAS

NATIONAL INSTITUTE OF TECHNOLOGY & MANAGEMENT

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

WORKSHOP HELD in EVEN SEM 2017-18

Topic : PYTHON TECHNOLOGIES

Conducted by: Mr. Rohit Kumar, SPI Computer Technology (P) Ltd

Duration : 7 Sep2017 & 8 Sep 2017

Audience : Students of II Year CSE & IT

Main objective of organizing this workshop was to make the students aware of upcoming technologies and help them understand and become proficient in the current technology as per the industry requirement. Python is Scripting Language that is a platform independent, open source, object-oriented, function & Structured programming used for building large projects. AKTU has introduced it in II year IV semester for the first time in the lab. This workshop was planned with the motive to create interest of students and also to enable them in developing small projects by hands on demo. The students were encouraged to develop working mini projects.
