### 1. AWARDS AND ACHIEVEMENTS

- The Department of ECE, BBDNITM adds another feather to its cap. Our head of department **Dr. Shailendra Tahilyani** awarded with **Times of India Edu-Icon** award by Hon'ble Dy. Chief Minister of the State.

## Academic Excellence

**CONSUMER CONNECT INITIATIVE**

**The initiative to honour and award people from the field of education was much appreciated by one and all!**

ambika Mishra from Ambika Institute of Management and Technology, said, "The pandemic has been a good window for children as students to study and learn. Our education system is much reorganized and children must be given the opportunity to study what interests them, learn things that cater to different mind-sets. This way the pandemic has given kids space to noble gesture, especially at a time when the pandemic presented some very unique challenges for teachers and educationists. Reorganizing and adapting to the changing needs of students and the global health crisis was unique and helped everyone learn key lessons. It has opened new vistas of education and helping everyone foray into new frontiers. I think The Times of India has been working in the best interest of the education industry. Looking at the way things have progressed in the world of academics since last year, technical education requires physical presence to build focus and understanding on practical and experiments that are pivotal to technical learnings. Labs are crucial and students must be encouraged to physically attend labs and practical sessions once the pandemic protocols ease while keeping online classes in practice." Bhawna Gupta from Sir Padampat Singhania

admits of what we read reflect the changes that are happening around us. For instance, the pandemic had a direct impact on students and teachers. It impacted not just the medium of learning but also how students were being assessed and what they were studying. I think The Times of India for recognizing the efforts academics are making in building this nation." Dhruv Galgatta, from Galgotia University, said "Real time adaptation to the changing needs to the time is what has helped the educationists continue the process of learning for students. It is important that policy makers, academicians and educationists work on value-based strategic for the future that make the process of teaching and learning more
