5. The other main objective of observing this day was to bring about a change in their attitude towards the environment and advocate partnership between each human being and society to ensure a safe future for all.

10. Benefits in terms of Learning/ Skill/ Knowledge Obtained: -

The pandemic that the world has been facing for over a year now, has taught us an important lesson that we should respect and value the gifts we have got from our Mother Nature. For too long now, humans have been exploiting earth's natural ecosystems for their benefit and in the process destroying them forever. It is high time now that we all come together and become more aware and conscious of the way we are utilizing our natural resources. In line with this year's theme - Only one Earth, IIC aimed to teach our participants the same through the Lecture organized to celebrate World Environment Day on 5 June 2022. Our esteemed Speaker encourages all the participants to understand the current Scenario of Environment.
