

Guest Lecture Report

Topic- “Design Aspects of Bridges and curverts”

Date of Lecture-15/04/2024

Time- 11.00 am to 1.00 pm

Guest Lecture is essential with the aim to mold young civil engineers minds and make them adopt the latest technological development as the requirement for NBA accreditation .Our guest lecturer deliver the lecture on Design Aspects of Bridges and curverts. He explained about Bridges which provides an easier route of transportation that saves time and reduces distance. Culverts prevent water logging, flood, and erosion, and allows water to flow its natural course under a roadway or railway. Culvert as a tunnel structure constructed under roadways or railways to provide cross drainage or to take electrical or other cables from one side to other. It is totally enclosed by soil or ground. Pipe culvert, box culvert and arch culvert are the common types used under roadways and railways. The design of culvert is based on hydraulic, water surface elevation, and roadway height and other conditions.

The details of speaker, venue and faculty coordinator given below:-

Speaker- Dr. R.K. Srivastava, Professor, SRMU,E-in-C, UPPWD(Rtd),MD, UP Sate Bridge Corporation(Rtd)

Venue – Room No.507 Conference Hall ,E Block, BBDITM, Lucknow

The following faculties will be coordinating this event-

1)Mrs.Shruti Singh Bisen, Assistant Professor-CE

2)Mr. Avinash Kr. Upadhyay, Assistant Professor-CE

Total 69 students and faculty members participated in this event
