Organized by
Civil Engineering Department
Babu Banarasi Das Institute of Technology
& Management, (BBDITM) Lucknow

Welcome

Department of Civil Engineering announces the **1st International Conference on Advances in Civil and Materials Engineering''**.(ICACME-2024) in Hybrid (In-person and Online) to be held at Babu Banarasi Das Institute of Technology & Management, Lucknow between November, 29 to 30, 2024. We invite researchers, academicians, professionals, and students to participate and present their research findings. This conference aims to provide a platform for the exchange of ideas and advancements in the field of Civil and Materials Engineering. Join us in Lucknow or online for ICACME-2024 to explore the future of Civil and Materials Engineering.

About BBDITM

Babu Banarasi Das Institute of Technology & Management, Lucknow (BBDITM) is one of the efforts to cherish the memory of the great and noble soul Babu Banarasi Das Ji, Ex. Chief Minister, Government of Uttar Pradesh. With the privilege of having inherited his legacy, BBDITM pioneered and today offers the richest programs in Engineering and Management. Since its establishment in 1998, we have been striving to set high standards for our stakeholders and are committed to meeting our social responsibilities. We incorporate outcome-based educational (OBE) practices into all our academic programs.

BBDITM is approved by the All India Council for Technical Education, Ministry of HRD, Government of India, and is affiliated with Dr. A P J

Abdul Kalam Technical University. In a short span of time, the institute has grown from strength to strength and is counted among the best engineering colleges in Northern India. BBDITM boasts academic departments in Engineering, Management Studies, and centers of higher education programs.

Conference Highlights:

- Keynote Lectures: Delivered by engineering heads from leading companies in the region.
- Panel Discussions: Bringing together industry and academia to explore collaborative opportunities and future trends.
- Technical Sessions: Covering a wide range of topics in Civil and Materials Engineering.
- Workshops: Focused on practical applications and advancements in the field.
- Networking Opportunities: Facilitating interactions between industry professionals, academics, and students.

Call for Papers and Posters:

We invite academicians working in structural design, simulation of construction components, and related areas to submit papers that report case studies and applications of their theories. Students working in areas such as simulating software or their components for energy-efficient systems/subsystems are encouraged to submit posters, offering young talents exposure to industry experts.

Topics of Interest:

- Structural Engineering
- Materials Engineering
- Construction Technology
- Environmental Engineering
- Geotechnical Engineering
- Transportation Engineering
- Hydraulic Engineering
- Computational Mechanics
- Sustainable Construction Practices
- Smart Materials and Intelligent Systems
- Energy-efficient Building Design
- Advances in Simulation and Modeling Techniques

- Composite materials
- Internet of Things

Submission Guidelines:

Detailed submission guidelines and deadlines will be available on the conference website [[insert website link](#)]. Submissions will be peer-reviewed, and selected papers will be published in the conference proceedings.
